150 M

Impulse welding device for the manufacture of big bags from thermoplastic film rools. These film sealing devices are used wherever thick material must be sealed. Working process throught a double thermo welding system by eliminating exceeding plastic material

Sealing times are infinitely adjustable on the control unit.

The range of application extends from sealing in of mattresses bags, pallets gags and so on.

TECHNICAL DATA:

Sealing length:	mm. 1500
Film thickness:	micron 150
Alimentazione:	230V - 50Hz
Electric power:	W1200
Dimension:	cm. 180 x 50 x 85
Peso:	Kg. 95

Technical alteration without prior notice.
